

## Learning Outside of the Classroom

### *To become successful, independent learners for life*

Our school values of independence, cooperation, respect, responsibility, resilience, and ambition are enriched and enhanced through opportunities provided by learning outside the classroom.

#### Outcomes

1. Learners enjoy participation in outdoor learning activities and are motivated to achieve their best.
2. They adopt a positive attitude to challenge and continually strive to improve and develop.
3. Learners gain a deeper awareness and understanding of the geography & history around them locally, within the North West region and nationally.
4. Children become immersed in learning which deepens their understanding of subject specific knowledge and skills.
5. Pupils develop skills of independence and self-awareness which can be applied in all aspects of learning and life.
6. Children are motivated to explore the world around them and understand more about culture, sport, and the environment.
7. Trust and relationships between both children and staff are deepened.
8. Children find ways to believe in themselves and others.
9. Through experiences of a variety of places and people, children have a better understanding of modern day Britain.
10. Children become more adventurous and their confidence to try new things increases.
